

# Heritage style Pier Cap

Drip groove cast in to underside as standard

Tell us the size of your pier and we'll manufacture a pier cap to fit it

The overall height of the cap depends on the width (the bigger the cap, the higher it is)

If there are special requirements such as gate posts or nearby walls to consider, let us know and we'll adjust the dimensions to fit

A Heritage pier cap will overhang your pier by 80mm on each side (160mm overall) at its widest point

## Information we'll need to make your order:

- The size of your pier(s)
- How many pier caps you need
- Any special requirements - such as restricted space
