

Standard style Pier Cap

A standard pier cap will overhang your pier by 40mm – 50mm on each side (80-100mm overall) - the bigger the cap, the bigger the overhang

If there are special requirements such as gate posts or nearby walls to consider, let us know and we'll adjust the dimensions to fit

Information we'll need to make your order:

- The size of your pier(s)
- How many pier caps you need
- Any special requirements - such as restricted space
